Daily Impact

We're lucky enough to live on an incredible planet. I consider myself lucky to be able to educate people across the country about this planet's most incredible phenomena and it's impact on their daily lives.

I've not only been forecasting on-air for nearly eight years but am a certified meteorologist. I've forecasted and covered severe storms, tornadoes, Nor'easters, ice storms, hurricanes, floods, wind storms, heat waves, wildfires and even some sunshine in between.

Kristina Shalhoup
Broadcast Meteorologist
